# HƯỚNG DẪN

Mở Oracle SQL Server, đăng nhập vào tài khoản có quyền quản trị ở port number "1521" và service name "xe", chạy đoạn code sql có sẵn trong thư mục "exe".

Click đúp file WinFormsProject.exe trong thư mục exe, nhập tài khoản mật khẩu của database localhost có quyền quản trị.

Connection string sẽ có dạng như sau:

```
//Connect to Oracle database using OracleConnection and save connection to use in MenuForm
string conString = "User Id=" + txt_username.Text + ";Password=" + txt_password.Text + ";Data Source=localhost:1521/xe;";
```
